It is functioning at the national level as an 'Apex Body', duly supported by Ministry of Youth Affairs & Sports, Govt of India and has been accorded the status of 'All India Organisation' under the scheme for National Programme for Youth and Adolescent Development (NPYAD). About IMF

Indian Mountaineering Foundation (IMF) is the apex national body for mountaineering and allied sports. What was initially formed as the 'Sponsoring Committee of the Cho Oyu Expedition', transformed into the IMF on 5th January, 1961, as we know it today. IMF supports, promotes and regulates national and international climbing and mountaineering in India and is affiliated to the UIAA (International Mountaineering and Climbing Federation). IMF is also the regulatory body for the competitive Olympic sport of Sport Climbing and is affiliated to the IFSC (International Federation of Sport Climbing). IMF is also engaged in mountain protection work, knowledge building and creating awareness of the Indian Himalaya.

Sport Climbing

Sport climbing takes the challenge of scaling steep ascents to a whole new level. Using a range of hand and foot holds of different shapes and sizes, climbers put their skills and strength into practice on a vertical wall. The wall may feature varying angles of either positive (known in climbing as a slab) or negative (steep, overhanging) sections.

The sport climbing made its Olympic debut at Tokyo 2020 and featured three disciplines: Speed, Bouldering and Lead. We are happy to announce an NAF Open Sport Climbing Competition 2021 at New Delhi.
